

How to tackle maximum challenges by minimum recourses

Model For Civil Safety and Wellbeing in Municipalities

23.6.2014

Seppo Lehto

Chief Rescue Inspector

Regional State Administrative Agency for Lapland

Aluehallintovirasto
Regionförvaltningsverket
Regional State Administrative Agency

Why do we need a new working model?

The Social- and Health sector's costs are rising steeply

- This can not continue like that!

Regionförvaltningsverket
Regional State Administrative Agency

What we need to do?

We need to do more preventive work and
we have to find new partnerships
to do it with us

Public-Private-People Partnership is a possibility

- Public authorities, NGO's and the private sector have the same wellbeing and civil safety objectives, and lots of know-how and a lack of resources
- If we have common interests, why don't we connect our resources and start to do serious co-operation together?

The Wellbeing and Civil Safety Network and Co-ordinators in Lapland

Authorities	NGO's	Private Sector	Projects
State Regional authorities Lapin AVI Lapin ELY –Centre	Finnish Red Cross	Enterprisers of Lapland Association	Civil Safety and Wellbeing in Municipalities
Regional Council of Lapland	Villages of Lapland Association		Northern National Social- and Health sectors Development Programme
Rescue Service of Lapland	Finnish National Rescue Association		NGO's in the villages
Police	Civil Defence Training Association		Municipalities Electronic Safety planning platform
Lapland University Consortium MTI RAMK	Social- and healthcare Association of Lapland		Travelling Safety Projects
Lapland's Centre of Excellence For Social Affairs	Crime Victim Support Association		Regional village Project

Agrifood Research Finland MTT Rovaniemi	Mannerheim League for Child Welfare		ABC meets Youths
	Sami Sister Association		

Five pilot municipalities

The Social- and Health Associations Network
The Tourism Safety Network
Traffic Safety Network
The Network of the Youth Associations

Low level services, education, training, co-operation, planning...

In every municipality there are MLL's family club and peer support groups

Strengthen low level services

- To children families, youngsters
- To senior citizens
- To mothers and families which have alcohol or drug troubles
- To crime victims
- To male prisoners who are in parole

There are efficient outreach youth work in every municipality

All elementary and comprehensive schools participate to the Nice School project

- Every elementary and comprehensive school has own school police
- In comprehensive schools they have educated prefects
- Every schools use safety calendar

Allocated safety and well being education and training

- To senior citizen
- To child and youngsters
- To Saame people
- To conscripts
- To refugees
- To people who works in shops
- To youngsters who has a risk of social exclusion
- To staff of social services in municipalities
- To villages and district clubs in cities
- To teachers and other school staff

Model for civil Safety and Wellbeing in Municipalities

- Common targets, common resources!

Networking model of the municipalities

1. Better understanding of local needs

- Electronic welfare report
(Ministries programmes, indicators, local needs/example: report of villages)

2. Common targets – common resources

- Cross-functional working group in municipalities

3. Service packets of wellbeing and civil safety

- Using of all resources
(Municipality, other public sector, private sector, NGO's, projects)

4. Decision making and control

- Main targets to the annual fiscal and budget planning
- Service packets to the electronic welfare report

What do we need?

- We need to do more preventive work
- We need to have more resources

What do we have to do?

- We have to find new partnerships
- We have to learn to do reliable co-operation with NGO's and private sector
- We have to learn coordinate better our local, regional and national targets and resources

What do we have?

- We are able to utilize common resources more efficiently and we have more resources to do preventive work, offer better services and to save money!
